Dear Caroline,

I have been contacted by constituents regarding their concerns about speeding and road safety in Marple and Strines. This ongoing safety issue is of great concern to residents. Nothing has changed to prevent future accidents or to make the road safer for drivers and pedestrians. This situation is problematic for local residents.

I have attached recent images of two accidents which have taken place in the last sixth months (February and the end of May). I am aware of the Greater Manchester safety camera handbook and the criteria for different types of road safety measures. However, continued accidents and safety issues on Strines Road demonstrate the need for action now.

My constituents are concerned that without road safety measures there will be further serious accidents and potential fatalities. Therefore, I would like to request the information relating to road accident figures on Strines Road in the last five years and what steps the Council is going to take to address this serious issue.

Given the seriousness of this matter, I have written to all of the residents on Strines Road attaching a copy of this letter. I look forward to hearing from you.

Yours sincerely,

William Wragg MP
